REDCLIFF, ALBERTA, FRIDAY, AUGUST 8, 1913.

NUMBER 32

REDCLIFF HAS A GLOWING FUTURE SAYS F. C. YOUNG

Buffalo Man Here in Con-
nection With Shoe Factory
Planned.

QUICK RECOVERY HERE

General Movement on Finan-
cial Checkboard is Due
in Two Months.

Mr. Frederick C. Young, of the Buffalo Shoe and Leather Co., spent three days of this week in Redcliff and is now in Calgary, just goes to see to Winnipeg and thence to the York State, home where he will remain pending the result of the by-law election on August 26 which will grant a site to this industry.

Mr. Young is imbued with every faith in Redcliff's future and predicts that, inspired by a proper co-operative spirit, the people of this city hold in their palm the power to make this one of the biggest cities of the prairie provinces. Every nation advancing that a town could ask for belongs to Redcliff and it is up to the people to make use of them.

Mr. Young says that he believes Redcliff will recover her balance the quickest from the development of a section which has looked Canada in its embrace this year of any of its towns and cities in this province. The reason one need not go far to find is because Redcliff has in proportion what no other western city has in the shape of varied industries. The name of Redcliff, he says, is searching out the trade and financial centers of the East as a town of solid looking, whose back growth has and will be attributable to that avenue of human endeavor, manufacturing, which builds up a city more quickly and solidly than any other factor.

Mr. Young is confident that the money market will assume its normal tone in three months at the outside, but more likely within two months. Conditions are rapidly improving in the states and the move of President Wilson in extending federal aid to the farmer at a time when the banks have not come forward quite as liberally as usual has entrenched the executive in the good will of the masses and has dispelled the mid-summer gloom.

Mr. Young declines to make any statement for publication as regards his program. It rests with the people. He came with a sincere purpose, it is very evident, and his manner affability and contagious optimism makes a friend instantly. He and his institution will be double assets to Redcliff and it is such men as Mr. Young, deliberating, reasoning, discerning, who are needed in the town's human factor.

WAREHOUSE GOING UP FOR GLASS WORKS

Mr. Geo. A. Lydiatt, of the Dominion Glass Co., announces the intention of the company to commence at once on the erection of a huge steel and corrugated iron warehouse to house the manufactured products of the plant and also the supplies in current demand. The building will be 75 feet by 150 feet in dimensions.

Fresh From England,
She Marries To-day.

Miss M. Debrick, of Paxton, Whitehaven, England, arrived in Redcliff this morning and was married to-day to Mr. J. Williams of this city. The Rev. G. L. Gordon will administer the wedding ceremony.

PROSPERITY THE KEYNOTE OF ALL CROP AND FINANCIAL BULLETINS—BANNER YEAR DUE

Financial Improvement Looming Large on Horizon
Is Consensus of Opinion—Grain Acreage and
Yield Greatest in History of Dominion—Tieup
Has Served a Good Purpose Here.

At this time every city in the grain belt of North America is quiet as a direct result, irrespective of all other agencies, of the general exodus to the harvest fields. Every bank has been tightening up its loose purse strings, every railroad has been calling in every idle car and distributing them to the points advantageous for crop shipments to have sufficient rolling stock, and every stock broker and grain man is either sitting on the fence waiting for the final result of the harvest or is enjoying a summer's respite from work.

DO YOU KNOW
That the grain acreage of Canada is half a million greater than ever before?

That the export wheat trade with Germany has tripled in one year, according to Ottawa figures?

That 146,000 immigrants arrived in Canada in the months of April and May?

That 5,400 settlers passed the immigration officers in Winnipeg the first week of last month?

That the growth of Western Canadian cities collectively is faster than any other group of cities the world over?

That there are hundreds of thousands of acres of agricultural land yet to be taken up?

That this future population must have clothing and a myriad of

necessities manufactured in their midst?

That Redcliff is ideally located to manufacture and distribute to these millions?

That the transportation, storage and power problems, the greatest difficulties in some cities, are all here?

And that Redcliff is bound to be a great manufacturing city in spite of any insidious owners in its stomach?

Redcliff cannot do other than to grow at an astounding rate. Travelers are unanimous in saying that Redcliff looks better than any city of 20,000 people. The people should discourage further soil venial exploitation until well warranted. It is the curse of Western Canada. But when promoters have a concrete proposition of industries and home building they should receive all recognition.

Redcliff will soon be feeling the pulse of the greatest crop prosperity in the history of Canada. This very crop will mean not only money but more people, more development, more manufacturing. Every year will bring several different industries to the city and thus diversify the character of our output in the more stable general business of the town will be.

When business is poor and no orders are coming in it is a good time to clean out the old list. The capitalists crop out at such times because one cannot see a suggestion.

When every one is making money hand over fist, the feverish desire to clean out the old list is so great that it is almost impossible to get a business proposal to countenance any suggestion. But poison is the best antidote for poison and one in a while a pack of wolves in the fold

will work havoc, but accomplish the good of making the rest more cautious.

There hasn't been a live new town ever born in North America that hasn't had its share of troubles and soiled linen to wash; and Redcliff is no exception. Where a year ago there was scarcely a sign of a town it is now a wonder that the problems and perplexities of organizing and administering all of the public bodies should reap a harvest not only of success but of a few mistakes.

It is up to the people of this town to hold the town together and build it up where it now is as against giving in to inducements to spread the town a couple of miles in a virgin new direction when it is already blocked out big enough for a city of 20,000 people. The people should discourage further soil venial exploitation until well warranted. It is the curse of Western Canada. But when promoters have a concrete proposition of industries and home building they should receive all recognition.

Redcliff will soon be feeling the pulse of the greatest crop prosperity in the history of Canada. This very crop will mean not only money but more people, more development, more manufacturing. Every year will bring several different industries to the city and thus diversify the character of our output in the more stable general business of the town will be.

Redcliff will soon be feeling the pulse of the greatest crop prosperity in the history of Canada. This very crop will mean not only money but more people, more development, more manufacturing. Every year will bring several different industries to the city and thus diversify the character of our output in the more stable general business of the town will be.

QUESTION OF FILLING LOCAL DINNER PALE OR LETTING OUTSIDERS SKIM WATERWORKS CREAM OCCUPIES COUNCIL

Deadline in Council on Let-
ting Ditching Contracts
Rests on Surety.

Waterworks
BY-LAWS PASS

Notes Secured by Debitures
for Above Acceptable to
Outside Contractor.

Local ditching and excavating contractors who are anxious to gain employment for themselves and scores of idle men in the city completed furiously in the council meeting of Monday night against the outside firm of E. G. Gedney Co. of Winnipeg and Bossman, for the laying of the city water main. At this time the town is entirely without finances to carry on the work of laying water mains as contemplated in this year's program; there are scores of houses "drying on temporary pipes laid a few inches below the surface such as would freeze solid with the first frosts; there are many idle men who are only too anxious to do the work.

Mr. Gedney, of the outside firm referred to, was at the meeting and expressed himself as being willing to accept four months' notes of the city, which would be either counted or extended on the failure of the city to meet them or on his own desire to get his money out, as the case may be. This willingness was the strongest argument brought to bear toward the awarding of the contract to the outsiders, especially as they are able to furnish ample bond as surety for the carrying out of the work within the required time.

On the other hand, the local men through Messrs. Spence, Hall and others declared that in the event that the contract was awarded to

Eastern towns dependent on the manufacture of any one article for their sustenance are paralyzed by the temporary failure of the market in that commodity. Redcliff will be less many-sided that only a stagnation in all lines of trade can impair her prosperity. When there is no market for building materials, lime, brick, ornamental iron, whiplows, doors, automobiles, etc., there is bound to be a market for anything so stable as beer bottles and boots and shoes, while furniture, agricultural implements and steel tools will act as a pendulum on the city's trade clock.

The first ten manufacturers are the hardest to get. The next ten are easier and the next still easier. As Redcliff grows she will gain city advantages and announcements that will be a greater inducement to manufacturers to locate their plants here for a good home city for their employees.

Prosperity is in the air and it takes the outsider to feel it more than ourselves. The farmer and business man have gotten a little ahead of themselves, have overdrawn and sewed themselves up. That is no cause of hard times. When the booming up comes Redcliff should be prepared to get all that is coming to her with no maladministration in her affairs, with a live board of trade or kindred publicity organization and with a common harmonious spirit among the residents. Now is the cleaning out period.

There are five miles of water pipe already waiting on a spur track and five miles of pipe for which notification has been received that it is on the road. Mr. Gedney said that he is in a position to put two ditching machines on the work and finish it up in double-quick time, whereas it was pointed out that 100 men doing the work by hand could scarcely dig ditches and lay the pipes before the freezeup. But the latter fact, admitted by all, was, nevertheless, the strongest argument for keeping the work in local channels, as it would keep the out-of-work in employment, and increase local business.

City Engineer Aswell corroborated the statement that 100 men would be needed if the work were done by hand, whereas but three or four would be employed on a ditcher, according to Mr. Gedney's own statement.

The problem of letting this contract is more serious than a casual observer would suppose, and Councilors Hicks and Hodge pointed it home in behalf of the workmen who want a full dinner pail and who have been staring at the bottom of an empty one for some time. Although no figures for the work were quoted, it was very apparent from the council's attitude on the matter that the local bids compared favorably with the outside firm's offer. It was a question of spreading a large sum of money among a large number of men rather than letting one man walk off with the whole.

Councilman Hodge suggested that a slice of the debentures be sold locally, it being understood that Dr. Kohler, for one, would take over a portion, rather than see them scattered.

(Continued on Page Two)

50 MEN ON AT ROLLER MILLS IN TWO WEEKS

Supt. McCleary Says Many
Will Be Employed When
First Mill Starts.

125 ON BY JAN. NEXT

Will Pick Men Up Here—Full
Pay-Roll Will Be Over
\$6,000 Monthly.

One roll of the two that will turn out all of the products of the Redcliff Roller-Mill will be in operation by the 18th of this month, said Supt. Rold, McCleary yesterday noon. This will mean the employment of 50 men at the start. By January Mr. McCleary reckons there will be 125 men at work in the mill.

Strangely at contrast, with its effect on the average business man, the roll in trade circles this summer has been welcome to the officials of the roller mill, as it has given them something to do to install their machinery without the spur of a volume of rush orders over their heads. However, there is already a demand on the new mill for certain of its products that will keep it running one full gear under way.

Under an old working force the mill will have a pay-roll of close to \$7,000 a month, which should swell the volume of local trade and make for prosperity for all of the merchants. There will be employment for a couple of scores of local men in the mill, Mr. McCleary says that a man that kind it comes rather hard at first but that the local men will receive the preference.

Two huge engines and one lighter one will turn the rolls that will reduce the wrought scrap into the rough bars for lathe work. Several hundred tons of scrap iron of every description piled high around the plant ready for heating for the roll beds. One 500 horse power engine and one 80 horse power are now installed, while one 600 horse power is expected up any day from Mod. city. That where it has been in transit.

Machine lathes will run on 100 feet of line-shaft from the heavy crank drives. Huge sissors will be capable of cutting five-by-five cold bars. The power shaft in the Roller Mill will be great.

The only competition with the local plant in the wide western field is with a mill in Medicine Hat which turns out some of the "squares" and "rounds" that will be part of the home output, but the field in "T's", angles, nuts and bolts nailed here will be unchallenged. There is no plant east of the Great Lakes that manufactures these goods.

SYKES EXCAVATING ON THIRD STREET

Contractor D. H. Sykes has commenced the erection of a two-story building on Third street, south of his present building. Elliott & Lang are doing the excavating work for the building which will be the width of the lot and 40 feet deep, to cost, when completed, \$40,000. It will be veneered with brick similar in outline to the present building built and owned by Mr. Sykes.

Callinger Buys Out Ström.
Mr. Callinger, of the Callinger-Deay real estate company has purchased the pool room in the Brown building from Harry Ström, who is managing it. Mr. Ström leaves shortly for his Minnesota home on a visit.

OPPONENTS OF BY-LAWS ARE UNSUCCESSFUL

Farrar and Harris, Prop-
onents of Complaints, Bring
Unsuccessful Case.

DISMISSED BY
CALGARY COURT

Judge Carpenter, of Alberta
District Court, Quashes
Charges.

Judge Carpenter, of the Alberta District Court sitting at Calgary yesterday, dismissed the cases brought against the town of Redcliff by Samuel G. Farrar and A. C. Harris. Mr. A. C. Harris returned from Calgary this afternoon and made public this information.

Mr. Harris argued the defense in the cases.

Mr. Farrar and others associated with him, or rather with whom he is associated, have been doing their utmost to illegalize the by-law granting sites to the different factories planning to locate here. The ultimate outcome would have been the equivalent, as the factories will come in spite of all opposition, but it is pleasing to know that the courts interpose no judicial block to temporarily delay the factories. With the matter out of civil hands it remains only for the Edmonton government to go on the matter in November, absolute assurance of which has been given the town.

Glass Official Here.

Mr. Henry D. Herd, superintendent of all the factories of the Diamond Plant Glass Company, of which the local Dominion Glass Company is one branch, is in Redcliff. Mr. Herd has much executive authority in the parent company.

Evening Of Sport For Lovers

Of the Mat, To-night.
Jack Taylor, victor on the mat over Dr. Roller, of Seattle, and champion heavyweight wrestler of Canada, will take on the six best local wrestlers at the Empress theatre to-night on a guarantee of pinning the entire troupe to the mat in sixty minutes.

Taylor says that no roughing in or strangling hold will be allowed in the matches and that they will be conducted strictly according to the rules of the game. The hammerlock, half-nelson and full-nelson will be resorted to if the opportunity presents itself in any case.

Taylor gained a decision over Dr. Roller at Lincoln, Neb., on Feb. 27 last. His first real public match was with Oscar Watson in Lethbridge last July. He wrestled Jess Westergaard an hour without a fall at Aurora, Neb., last January.

No fair holds will be barred at to-night's match. Taylor cannot as yet give out the names of the men who will face him tonight. There will also be a ladies best two-out-of-three match between two women wrestlers who are accompanying Mr. Taylor on the program. The first match starts at 8:30 and the evening's sport will end at about 10 o'clock.

Say Mr. Wage Earner are you Eating with Us?

If not you're missing it. All
trails lead to our place. We'll

Matter of Letting Waterworks Contract Is Business Before Council

(Continued from First Page)

diffed on a low market, but Mayor Douke voiced the opinion that not enough would be marketed here to make it worth while, especially as the split issue would not be a marketable one. A Toledo firm is still in the hands of the public, with the bond sale—the firm whose representative, Mr. Dean, was here some weeks ago.

Questioned as to their ability to complete the work, the local men severely gave milage assurance such as to make up the total of six and one-half miles which Mr. Ask with says must be in before winter sets in.

Mr. Gedney said that with his digging machine he can do 600 feet of digging a day and follow the machine with the pipe. At this rate it would take nearly three months to do the work, but Mr. Gedney declared his willingness to wait on the notes. In the case of a similar large contract in Lethbridge he dissuaded the city's notes at eight per cent, thereby being the lower by two per cent over the current interest rate.

The final draft of the waterworks contract matter wound up with a decision that waterworks committee study all phases of the matter purely from a business viewpoint and bring it to a head at a meeting of the council to-night.

OTHER COUNCIL MATTERS

After the discussion on the Waterworks problem Mr. Jansson, of the firm of Jansson, Yess & Hayes, proprietors of the new Laurel Hotel, put a problem up to the council in connection with the sewerage from his hotel, stating that at the present rate it would cost him \$1,800 a year, solely to keep the cesspool empty; that the present cesspool had no sewage bed, being on a rock sub-strata; that a depth of 32 feet was required to get to the bottom, and efforts had been made to find sand all around the hotel to no success; and that if things went on this way it would entail then a tremendous expense comparatively for a matter that is usually of slight consideration financially, and that inasmuch as they were given to understand last fall that a sewerage system would be in service by this time

BAPTISTS HOLD SOCIAL.

The ladies of the Baptist church held an open-air social under conditions rather discouraging last Saturday night. It was planned for the vacant corner at Broadway and Third Street, but a furious dust storm came up early in the evening and the Redcliff Band, which was scheduled to play for the fête, appeared out of a mist of dirt, but heavily stayed by the white. The later portion of the evening was more enjoyable and the ladies continued with the social in the unfinished Black building on Broadway. The band played in the rear of the building and the affair continued on into the late evening hours.

Baseball Dance To-Night.

Arrangements are complete for a lively dance under the auspices and for the benefit of the Redcliff Baseball Club to be held at the Bon Ton Hall on Third Street North to-night. This will be the first dance held on this floor and should prove an interesting and enjoyable affair. No tickets for the entire program will be sold. The charges will be for each dance, as many as one may wish to take part in. The Redcliff band will furnish the music.

that they felt the council might be disposed to lend a little assistance to them in finding their way out of the difficulty. The council took no action on this matter.

The finance committee of the council complained to the council at large about expenses in connection with the bond sale, the participation in assessing unimproved outlays in auto rides to and from the Hat, etc., while on police business.

Money shortage again appears on the horizon unless the taxes come in faster. A loan of \$10,000 was made to the city on its debentures last May and since then the town has had an advance of \$17,000 on its tax roll, or an overdraw of \$2,000.

Councilman Hodge brought the meeting to a close with a recommendation for a speed regulating by-law to keep the automobile drivers within bounds. First Street has been used all summer as a speedway and is a constant nuisance to the lives of children.

There will be another council meeting to-night.

THE WATERWORKS CONTRACT.

Whether or not the local men who are in the market for the ditching and pipe-laying work of the waterworks system should have the contracts or not rests entirely with their ability to rise to the occasion. Without a doubt every man on the council is strongly in favor of keeping the job locally if the city can be guaranteed the fulfillment of the contracts within the specified time and under proper surety.

One hundred men digging trenches for the next three months ought to make a mountain of dirty work and that number of men with money in their pockets, eating and buying their clothes here, would help the merchants and every time of business.

The ditching machines would employ a few hundred of men and the saving of money on labor would all go out of town. The local men are due to receive the edge on the consideration if they can make good.

Can they do it? It was stated in council that certain local parties would go on their surety and that the city's notes to the contractors could be discounted but this cannot be confirmed thus far. The outside firm will wait on the city's notes. The local men ought to do their utmost to scrape up pledges of assumptions of discounted notes. To night's council session will probably settle it.

GOOD EXAMPLES.

The United States through-out the fabric of her federation and separate commonwealths has taken more and more progressive steps in the five months since President Wilson took the chair than in any like period for years. That is, if the lack of internal discussion in the individual states and central power is any gauge of harmony.

Whatever criticisms on her international policy may be offered it is very evident that the Republic has a leader who knows that real leadership starts at home and that it is the height of folly to start off of the reel on any like period of overthrowing the general order of things.

There are none of the Tammany Hall stamp dictating to Wilson, nor no Joe Cannon, or Champ Clark or Aldrich, making the president appear like a vacillating tool of the interests. Wilson is his own boss, but with that gracious tact which divorces his actions from any self aggrandizement. The people are with him. They can see no graft, no conspiracy. They know he is on the square. They thought he might prove a theorist, but are finding him to be a practitioner in administration.

Wilson would not be bluffed and browbeaten by the financial thugs of Wall Street. He called their bluff instantly a few weeks ago by threatening to tack the banks of the States up with the reserve of the United States treasury. He has since advanced \$50,000,000 to the farmers to help them out during crop movements.

And in the individual states Minnesota, for one, has shown a disposition toward dissolving the spell of money tightness that almost seasonally affects the farmers at this time. The State Bankers Association has appointed a committee of eleven representing each congressional district who, in turn, appoint sub-committees from each county, and then in conjunction with the advice

given by deans and professors in the agricultural colleges and branches will place a farming valuation on the actual productive ability of every farmer such as to regulate the credit to be extended to him. In other words, the State Bank will advance money freely on crop futures based on the farmer's past record. They are going to voluntarily, yet safely to themselves, release the farmer from the strangle-hold of dearth of funds to float himself.

The reform in the credit system with the farmers of the States is the greatest accomplishment of the present administration.

The policy of an outside contracting firm of bringing in all of their men from a neighboring city when in the first place they were so fortunate as to land a dandy building job here may be all right, perfectly within bounds, entirely justifiable from a business point of view etc. but from a moral point of view as an unwritten law it doesn't look quite like a fair shake to the local men who need the work. The only phase of it that would palliate it is our estimation is that it may be the case that this firm has a steady contract pay roll in Medicine Hat, and may not have the work for them there. This, we are given to understand, happens to be true, and therefore the local people must concede that the outside firm was at liberty in every way to employ their own men.

Presbyterian Church.

Public worship will be held in the church on Sabbath at 11 a. m. when Rev. Gordon will speak on "Justification by Faith," and in Empire Theatre at 7.30 p. m. the discourse will seek an answer to the question, "Is the World Getting Better?"

Sabbath school at 2.30 and Bible class at 3.30 p. m. The mid-week service is on Wednesday evening at 8 o'clock, the topic: "Our Lord's Defeat of His Work and Claims." The choir meets on Thursday at 8 p. m.

It is expected that the plans for the new church will be ready to submit to the congregation next week and more definite intimation will be made on Sabbath.

REDCLIFF - ALTA.

BREVITIES

Contractor Groves returned from Calgary Sunday, where he has been at the bedside of his sister who is recovering from an operation for appendicitis.

F. F. McBride has been in Calgary part of the week.

Mr. Finlay, brother-in-law of Mr. Miller of the firm of McBride and Co. and for seventeen years on the force of the Moose Jaw Times, has been in the city this week on his way to the Coast.

Mr. Chas. Sparks and his brother, who have been building an apartment house on Fifth street, left yesterday for Chatham, Ontario, their old home where they will remain until spring, when they will return with their wives.

The case of a suit for wages announced against Contractor Alby Olson was brought against Mrs. Adell, owner of the building on which Mr. Olson had the contract. The employees brought suit without voicing any complaint about a little discrepancy of two dollars and lost the suit.

Mr. A. Symon has been appointed manager of marriage licenses by the Alberta government.

Mr. Keate returned from the hospital at Medicine Hat Tuesday.

Excavation work for the Imperial Bank building on the corner of Third and Broadway has started.

Bole's Auto Tips on Way to Hat
L. G. Bole, clerk at the Merchant's Bank, took a bad spill last Saturday night in his two-seated runabout some distance below the Clay Products plant on his way to Medicine Hat. The machine was going at a high rate of speed and could not keep the road when the steering gear refused to respond.

When the machine turned turtle Bole was thrown some distance in the clear and was unharmed aside from a few bruises. The car was

righted and taken to the City Garage where it is now undergoing repairs.

Brick Go Through Fire Before they Go to You.

They are made from clay and the clay is burned in a heat that averages 2300 degrees Fahrenheit—a heat far greater than any fire they will ever be called upon to pass through in the walls of your house.

This is what makes Brick Fire-proof.
That is what makes Brick Frost-proof.
That is what makes Brick Impenetrable.

Build Your Home of Brick-IT'S ECONOMY

True economy not only takes in the first cost but the cost that is to come. Brick houses of average construction cost but a few dollars more than lumber or stucco, say \$150. on a \$3,500 house. But when they are erected cost stops. There are no repairs to be figured on. There is no painting to be counted in every 3 or 4 years. There is no depreciation in price, consequently your house will sell for what it cost you, plus the increase of the value of your lot in the meanwhile. There is a reduction in the insurance rate of 3/4 per cent over concrete or stucco and more than 50 per cent over lumber. There is a reduction in fuel bills, because brick keeps out the frost in winter. There is comfort in summer because brick keeps out the heat. And above all you can borrow more money from your bank on a brick house ten years after it is constructed than you can on a lumber or concrete of the same value in the same period of time. When you build, build for true economy.

CARNDUFF MAN TO OPEN STOCK OF STATIONERY

Broadway Building To Have
Shoe and Stationery
Stores Soon.

Mr. J. H. Taylor, of Carnduff, Sask., has returned to that place for a couple of weeks after which he will be in Redcliff permanently, having taken a lease on one half of the Black building on Broadway which he will use as a stationery store.

Mr. Taylor has been in the little town of Carnduff for a great many years and has served as mayor of the town. He was in Redcliff in the fore part of the year and is amazed with the growth that has taken place since then. He says that he is leaving a good town but is coming to a better. Carnduff, he says, has the reputation of being the cleanest, best improved and attractive little town in Saskatchewan.

Mr. W. J. Fairbairn, of this city and formerly of Carnduff also, has leased the other half of the Black building for a boot and shoe store. It will be the first exclusive line in town. Both places of business will be open in two or three weeks.

Church Of England.

Friday, August 8, Evensong and choir practise back of Chad's at 8 p. m. Sunday next, no early service, no morning service. Sunday School at 2.30 back of Chad's Evensong at 7.30 in Maple Hall.

There will also be Holy Communion at 11 a. m. and afternoon service at 3 p. m. at Ben Reeve's Box Springs.

Employers of Labor should be protected by Liability Insurance. Let J. L. Landis & Co. write you a policy in a good strong company.

FIRE PROTECTION VERY INADEQUATE

Askwith Says Will Put Hydrants In Shape—Meeting
Next Monday.

Following the council meeting last Friday night the fire brigade met with members of the council fathering the meeting. Councilor Lydiatt was elected chairman.

The utter inadequacy of the present fire protection was brought out in the meeting and Mr. Askwith, city engineer, made it clear that no material improvement in conditions can be expected until the water tank is completed. He said that he would see to it that all of the hydrants are made serviceable, but that the pressure at present is not sufficient to throw any volume of water.

The scattered way in which the town is built and the brick type of buildings reduces the fire hazard very much. The greatest danger is in the possible destruction of frame dwellings, but the assurance is given that the water tank will be completed in a few weeks, and with a hydrant as far down as Seventh avenue on First street, the 1500-foot length of hose will reach every corner of the town. There are three hydrants in the business district and two near the school house.

Mr. F. Broughton was made secretary of the fire brigade at the meeting. Among other things recommended was that the sections of hose already on hand be coupled up for instant use. It was decided to have seven men of the brigade in the lower end of town, seven midway, and seven in the north end. Mr. W. Turner is chief of the fire brigade and Mr. C. Calderwood is assistant chief. The next meeting of the brigade will be held in the fire hall next Monday evening.

PRAIRIE GAS

Once in a while it's kind of fun to dim one's eyes and draw a mental picture of the spectacle that would be afforded us if a real fire alarm came in. The zeal with which that two-penny hose reel would be hauled down the street would be only equaled by the frantic efforts of the nozzle to throw water into our skyscrapers with as much pressure behind it as with a youngster who can't expectorate over his chin. But better times are coming.

Sanitarizing is going to be a profitable line of business and ought to appeal to some of the real estate men right now. This isn't a lifted story, but it's a fact that one of the collectors picked up a whole barrel of Mason Fruit Jars from the side of a down town bakery and carried it to the coolies. His business is picking up anyway. Cheer up. The worst is yet to come.

No post-mortems yet. Every week brings something new, but

It'll come out in the wash. The only yellow streaks we want around is the harvest yellow. And he says: "I gas we can meter at the Light and Power office." (Apologies to Mr. Lyons.)

SAYS ADVENT OF COOL WEATHER AUGURS EASEUP

Chicago Steel Man, on Stay in Redcliff, Gives Explanation of Tightness.

WALL STREET ON SIESTA

Shakeup Due When Helmsmen Return—Corporations Can't Stand the Gaff.

A representative of a Chicago steel company who was in Redcliff a few days ago, advanced a partial explanation of the present money crisis that is based on a version given to him not long ago by one of the foremost men in the United Steel Co. in Chicago.

This gentleman states that in the middle of the spring, while in the Windy City on business, he was told by this man that a paralysis of the money market could be expected this summer, followed by an unimproved tendency in September and a complete disappearance of the last vestige of panicky days of the first of the year.

The above prediction has been borne out in part and it remains to be seen whether it will prove wholly true. This magazine declared that the Balkan troubles, though they have not taken on the complexion of a world-wide embargo by any means, have accumulated to themselves such a strategic bearing on the entire field of financial operations on the Continent that the quietus has been clamped on complete, and the withdrawal of British and French financiers from the marts of the money-lender on this side of the water has interrupted trade circles and has forced an already overdrawn banking system to frantically retrench in order to manipulate the financial end of the rope movement.

The above combination has had the inevitable tendency of causing the Wall Street gamblers to pull in their horns, which, regrettably, has, in its turn, thrown its scare into big corporation directorates as regards immediate carrying out of construction programs. Stocks dropped and a little midsummer panic got under way; then the executive gamblers packed up and scurried to their seashore villas to escape summer's hot blast, while their lieutenants who were holding down the offices were deprived of their usual scant authority to manipulate the summer business.

But with the near approach of cool weather and the season of bumper crops all over North America it is predicted that we will see far better times next month in spite of the possible continuance of the Continental wars.

By-Law No. 10

A BY-LAW TO AUTHENTICATE THE ISSUE OF DEBENTURES OF THE TOWN OF REDCLIFF IN THE PROVINCE OF ALBERTA.

AMOUNT OF TWENTY-ONE THOUSAND DOLLARS (\$21,000.00) FOR THE PURPOSE OF PURCHASING SITES FOR THE LOCATION OF FACTORIES.

WHEREAS it is desirable and expedient to acquire by purchase lands in the vicinity of the Municipality of the Town of Redcliff for industrial purposes;

AND WHEREAS in order thereto it will be necessary to borrow the sum of \$21,000.00 to issue debentures of the said Town of Redcliff, bearing interest at the rate of 3 per centum per annum payable yearly, which is the amount of the debt intended to be created by this By-Law;

AND WHEREAS the amount of the whole principal property of the Town of Redcliff, according to the last revised assessment roll thereof, is the sum of \$8,077,000.00;

AND WHEREAS the existing Debenture Debt of the Town is \$21,000.00, and no part of either principal or interest is in arrears;

AND WHEREAS it is desirable to issue the principal of the said debt under the By-Law repaidable by the Town of Redcliff in annual instalments of \$1,000.00;

AND WHEREAS it is desirable to pay the interest annually upon all sums of principal money which shall from time to time remain unpaid;

NOW THEREFORE THE MUNICIPAL COUNCIL OF THE TOWN OF REDCLIFF ENACTS AS FOLLOWS:

(1) Twenty-one thousand dollar (\$21,000.00) shall be repaid by the Town of Redcliff in purchasing twenty-five (25) acres of the North-east quarter of section nine (9) in Township thirteen (13) and Range six (6), west of the Fourth Meridian, in the Province of Alberta, from the Redcliff Realty Company, Limited, for industrial purposes and for the purpose of building the said sum, Debentures of the Town of Redcliff to the sum of twenty-one thousand dollar (\$21,000.00) in the whole shall be issued in sums of not less than one hundred dollars (\$100) each, and each of the said debentures shall be dated on the day of its issue and shall be payable in equal semi-annual instalments, together with interest annually upon all sums of principal money which shall from time to time remain unpaid at the Royal Bank of Canada in the Town of Redcliff, in the Province of Alberta.

(2) Each of the said Debentures shall be signed by the Mayor and Seal of the Town of Redcliff and shall be signed by the Mayor and Secretary of the Town of Redcliff or by some other person authorized by By-Law to sign the same.

(3) The said Debentures shall bear interest at the rate of three (3) per centum per annum, payable at the said Bank on the first day of May in each and every year during the currency thereof, and shall have attached thereto coupons for the payment of the said instalments of principal and interest which coupons shall be

signed by the said Mayor and Secretary of the Town of Redcliff.

(4) During the currency of the said Debentures there shall be raised annually by a special Municipal rate on all the rateable property in the said Municipality in the same manner as the ordinary municipal taxes, the sum set out in the schedule annexed hereto and marked Schedule "A" to meet the annual instalments of principal and interest on the principal sum from time to time.

(5) This By-Law shall take effect on the day of the final passing thereof.

(6) The votes of the burgesses of the Town shall be taken in accordance with the law at the following time and place, that is to say: On Monday, the 25th day of August, A. D. 1913, commencing at the hour of 10 o'clock in the forenoon and continuing until the hour of 7 o'clock in the afternoon of the same day at the Hall in the building across the street from the Redcliff Hotel, in the Town of Redcliff, by the Returning Officer hereinafter named.

(7) William Henderson shall be the Returning Officer.

(8) On the 25th day of August, A. D. 1913, at 10 o'clock in the forenoon the Mayor shall attend at the place used for the Council meetings for the purpose of appointing persons to attend at the meeting and at the final summing up of votes by the Returning Officer on behalf of the persons interested in promoting or opposing this By-Law respectively.

(9) The Returning Officer shall attend at the place used for Council meetings at 10 o'clock on Tuesday the 26th day of August, A. D. 1913, to sum up the votes given for or against this By-Law.

Done and passed by the Municipal Council of the Town of Redcliff in Council assembled.

Read a first time this 11th day of June, A. D. 1913.

E. C. DANIELS, Mayor.
A. B. CLOW, Secretary-Treasurer.
Read a second time this 11th day of June, A. D. 1913.

E. C. DANIELS, Mayor.
A. B. CLOW, Secretary-Treasurer.

SCHEDULE "A" REFERRED TO IN THE FOREGOING BY-LAW.

Sum to be raised for the purpose of repaying the principal of the said debentures.

Sum to be raised for the purpose of repaying the interest of the said debentures.

PUBLIC NOTICE is hereby given that the foregoing is a true copy of the By-Law of the Town of Redcliff, in the Province of Alberta, for the purpose of purchasing sites for the location of factories, which has been introduced and passed by the Council of the Town of Redcliff, and that upon Monday, the 25th day of August, A. D. 1913, at 10 o'clock in the forenoon and continuing until the hour of 7 o'clock in the afternoon at the Hall across the street from the Redcliff Hotel, Redcliff.

GOTHAMITE TAKES FLYER AT HOTEL GAMES

Jones, of the Bon Ton, Comes, Sees, and Is Conquered Almost in a Day.

John W. Jones, late of New York, took charge of the Bon Ton Hotel, on Third street North, a week ago, and is going into the business with a vim that shows he is a live wire. He has decided to put on tri-weekly dances in a hall adjoining the hotel on Monday, Wednesday and Friday evenings. Mr. Jones was out in this Western Canadian country eighteen years ago and his only regret he says is that he did not stay at that time. He could see no future that would attain present proportions, but he believes the future from now on will eclipse all past records.

Packed Floor at Anglican Hop.

Of 125 tickets sold for the English dance at the Empress theatre last Tuesday evening it is estimated that 100 couples were present. The Misses Sherwin, who were probably the hardest workers for the success of the dance, state that financially it was a complete success as well as in every other way and that at least \$100 was netted to the Church of England for the rectory building.

Football Game Not Finished.

Owing to darkness the football game between Redcliff and the United team, of the Hat, was not played out last evening owing to darkness. A game will be arranged for later between these two teams and will be started early enough to be completed before darkness.

Harvest Help Easily Procured Through Calgary Provision

Ample Labor. Market Close at Hand—Letter Requests Notification.

Arrangements have been made this year for the sending out of harvest help on the special cheap rate to the various points in Alberta from the city of Calgary instead of direct from Winnipeg. R. S. Daley, Publicity Commissioner for Alberta at Winnipeg, has given authority for the sending of the one cent a mile rate to the central office of the United Farmers of Alberta through their secretary, P. P. Woodbridge. The fact that the limit was only made known at the very last moment and is only for the period between the 1st and 15th of August, makes it almost impossible for each of the various branches of the U. F. A. to be communicated with individually and it is hoped that those requiring help for the harvest will send their applications at once direct to the Secretary of the United Farmers of Alberta at Calgary, when the men will be dispatched to the various points as rapidly as possible.

For fire insurance in good strong finances see J. L. Landis & Co.

WATCHES

WANTED—Board and room in Redcliff, Aug. 27, 28, 29, for boy 16 years old. Apply, stating terms and particulars, to R. C. Bellina, Lethbridge.

AUTOMOBILE, 1913 model, seven-passenger, almost new, to exchange for revenue-bearing property in Redcliff or Medicine Hat. Apply to R. L. LANE, Redcliff, Alberta.

FOUND—Bicycle between Redcliff and Medicine Hat; owner can have same by proving property and applying to John Kitchen, facing Presby. terian church.

FOR SALE—Houses in Lockwood, piped for gas and water. Address Review office.

INTERRUPTS BOARD OF TRADE MEETING

The Board of Trade met last Tuesday night in Crowe's Hall. Shortly after the meeting started a man who is neither a member of the Board nor a resident of Redcliff, got up and started to make an attack on the secretary of the Board. This was resented by most of those present, and Mr. Corson, who occupied the chair declared the meeting adjourned. The party who started all the trouble has been quite conspicuous in Western towns for the past year or so.

two promising subdivisions and street railways and his attack on the secretary of the Board was caused by two or three letters the latter wrote in answer to inquiries regarding one of a subdivision that this man is interested in. He brimmed his attack on the secretary after the meeting adjourned and after which he left the hall and shortly after left for Medicine Hat.

Mr. Bott says that under parliamentary rules he will give a detailed explanation of anything and everything he has done as secretary of the Board of Trade at a future meeting.
